

SB 1152

- The WMHIP is owned and directed by its members as the only PA106 medical pool in the State of Michigan currently partnering 76 organizations, consisting of public schools, community colleges, cities, townships and counties servicing over 7,000 employees and more than 20,000 insured lives. The WMHIP
- This bill establishes for mature PA 106 Pools a requirement to maintain a 100% actuarially certified reserve and a minimum of a 2.5% net asset beyond reserves.
- The current law has an arbitrary reserve amount that equates to 500% of what is actuarially required for the WMHIP. This results in additional expense to the member organizations to not only maintain an unreasonable balance but to also waste over \$100K on an unnecessary Letter of Credit.
- SB 1152 will maintain a high level of security (beyond requirements in their industry) and assist in creating a more efficient solution for the public sector and their taxpayers.

Western Michigan Health Insurance Pool Members

Effective 1/1/17 the WMHIP has 77 members with over 7,000 employees including:
